The Montessori Association of New Zealand's

2007 centenary book celebrates the history of Montessori education in New Zealand.

A fascinating glimpse into the growth of Montessori on the otherside of the world from it's roots in Italy, this commemorative resource is one that all Montessorians will want to have on their bookshelf.

Featuring:

- the history of the Montessori movement and photos from early Montessori schools in New Zealand that have never before been published.
- the people who have contributed to the growth of Montessori "downunder"
- the views of New Zealanders on the contribution of Dr Montessori
- and the future of Montessori.

Books will be delivered in mid-March 2007, after the book launch, in Wellington, New Zealand.
